### **DETAILED ACTION**

This office action is in response to the applicant's amendment dated 3/13/2006, and RCE dated 4/10/2006.

The applicant has amended Claims 27-29, 31, 35, 38, 39, 41, 43 and 46.

Claims 27-52 are pending.

#### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/13/2006 has been entered.

#### ***Response to Amendment***

2. In view of the applicant's amendments to Claims 29, 39 and 41, the examiner withdraws the objections to said claims.

3. Applicant's arguments in the Remarks filed 3/13/2006 with respect to the rejections of independent Claims 27, 35 and 43 have been fully considered and are persuasive. The rejections under 35 USC 102 of Claims 27, 35 and 43 have been

Art Unit: 2138

withdrawn. Likewise, the rejections of dependent Claims 28-34, 36-42 and 44-52 have also been withdrawn.

***Allowable Subject Matter***

4. Claims 27-52 are allowed. The following is an examiner's statement of reasons for allowance: The reference art of the AAPA teaches a method of recovering a TAP controller from an unknown state during boundary scan testing, caused by ground bounce, and resuming the boundary scan test. And Beausang discloses methods of transitioning a simulation of a TAP controller to many specific states from possible random states to verify a TAP controller design. The combination of the two references however, failed to properly disclose or suggest transitioning three different failed TAP controller states caused by ground bounce to a determined state. Such a combination would require analogous art, or that a prior art reference either be in the field of applicant's endeavor or, if not, then be reasonably pertinent to the particular problem with which the applicant was concerned. In this case, Beausang has failed to address the problem with which the applicant was concerned. Therefore, Claims 27-52 are allowed, and will be renumbered as Claims 1-26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
